

# SBS Autumn Term 2023 Review

*Strive AND  
Believe TO Shine*

# Character Education

**This term we have looked at the character trait: resilience.**

Here are our inspirational people:

- Alice Tai (KS1)
- Ellen MacArthur (Tulane and Shadow)
- Michael Jordan (Aslan)

It means achieving something  
- you try a lot and sometimes  
you get it and sometimes you  
fall. Resilience means you get  
back up and you try again.

*Wilfred, Year 2*

Resilience means keep going  
and don't give up. It's important  
because if we didn't show  
resilience and you were in a team  
you would be letting your team  
down. When you grow up, some  
things get harder so you need  
resilience.

*James, Year 3*

# Resilience

We have all had an opportunity to build our resilience through different curriculum activities, our visitors and visits.

Zoolab - Early years and Key Stage 1

Woodmill - Key Stage 2

*Woodmill was great - I did the low ropes and it was fun. I think I learnt about resilience at Woodmill because you had to keep trying.  
Henry B, Year 3*

*Zoolab was amazing  
- I love nature!  
Teddy, Year 2*

*I loved the way the snake's skin felt.  
Romy, Year R*

# HeartSmart

In our Heartsmart lessons we have been learning about what it means to show ourselves and others kindness. This really helps us build resilience, because we don't let setbacks hold us back. Also, we know how to support others through kindness when they are finding things tough.

Don't forget to let love in means don't be unkind to yourself or others. If you're mean to yourself, it'll make you feel more sad and even angry. Maybe if a person did something wrong they might tell themselves off. Instead they should take a deep breath and say "It's fine, we can find a solution." *Iris, Year 4*

Don't forget to let love in - it means you should be kind to yourself and kind to others.  
*Beau, Year 2*

# Special Me Day

Our annual Special Me Day helps us to explore further our own identities, draw similarities and differences with others. This special day helps to remind us that we are 'all different but all equal.'

We use our growing skills in art to explore and express our own identities further.

# SBS Worship

In our SBS worships, we have been thinking about the values of 'respect' and 'patience.' As well as helping us to understanding more about living as a Christian, these values help us to achieve our class charters and keep to our 'SBS anti-bullying charter.'

If you want to ask someone a question, you should always wait for the person to finish talking.

*Ira, Year 1*

Yesterday the train gates were closed on the way to school and my Mum was getting frustrated and I said to remember about patience.

*Riley, Year 5*

I think we all need a reminder sometimes about respect. When we understand what it is, we can show respect every day.

*Florence, Year 6*

Patience is people who wait.

*Edie C, Year R*

Love is  
patient.  
love is kind.

1 CORINTHIANS 13

# Community Worship

We have listened to some really inspiring pupil-led worships. These worships are a chance to share our own interests, whilst developing our presentation skills. Community Worships are optional, but when we have a go at this, we really develop our personal skills. For example, this term it has been a great opportunity to practise growing 'resilience' and to for our audience to demonstrate 'respect.'

I really liked the one I did in Year 1. It was fun to stand up in front of the whole school. It gets you knowledge then you're telling the school things they don't know. *Walter Year 2*

I like the community worships, it gives people a chance to share things that they know. I liked the one about the New Forest ponies. *Mae Year 5*

There have been lots of opportunities through our curriculum learning to continue developing our understanding of 'global citizenship.'

Alongside this, our termly Science Day has given us the opportunity to grow as scientists and think about how we can use science to make a difference to the world.

# Global learning

We learnt about the habitat on the coral reef and how coral is alive. Coral reefs are important because if they weren't there some things would die because they live on the coral reef. We mustn't leave rubbish in the ocean, we must put the rubbish in our bin to be recycled. That way we don't hurt any animals' habitats.

*Hannah, Year 2*

We've learnt that sustainable things are things that will come back forever and won't run out. We should only use things that we really need to use.

*Clara Year 5*

# SBS Ambassadors

Being an SBS Ambassador helps us to develop our leadership skills. We practise our leadership skills in Elmer and Paddington class by helping each other with our learning. In KS2, we take on wider responsibilities. We have Ambassadors for Class, Eco and Worship. Here are our Eco Ambassadors opening Science Day

I help the Year 1s because when they're stuck with something I can help. I can show them how to make Traction Man because I'm a good artist. It's nice to help them because if you're stuck on anything, you don't want to be stuck forever, and it feels good to help.

*Hugh Year 2*

Yesterday we did a presentation about how people treat people who look different from them. It's important because we're all the same, even if we look different. *Juliet, Year 3*

By the Eco ambassadors

# Online safety

As responsible citizens we are learning how to stay safe online.

You should ask a grown up if you want to go online. You should tell your grown up if you see something that's not nice.

*Maggie Year 2*

Don't meet up with people you've met on the internet without telling your parents. Report online bullying to parents or teachers and you shouldn't stay online too long, it's not good for you. Every now and again, you should go outside and touch grass!

*Elliot, Year 6*

We learnt that you should never talk to someone online unless you've checked with your adult that you trust. If you don't recognise the name or the person, you shouldn't speak to them, it could be dangerous. Say you made a friend when you were playing a game online and you were chatting and they said something strange or asked like what's your address, you shouldn't talk back to them and go tell your adult.

*Sophie, Year 4*

# Literature

We continue to love books and reading. These are just some of the books we have read in our English lessons, shared reading lessons and through our topic learning. Reading really helps us to learn new things, explore new places, meet new people and sometimes go on exciting adventures.

# Gruffalo class

We are so delighted with our Gruffalo children for settling into South Baddesley so well! We have had some really special times with our Year 6 buddies – like when we planted the new trees or made our Christmas tree decorations. We had our first SBS campfire this term and have written some very funny Helicopter Stories!

# Elmer and Paddington

What a great team of children we have in Key Stage 1! A particular highlight this term has been our Dinosaur Nativity – we really don't think we'll ever forget *Sheep on the Move* – yeah, yeah! We enjoyed our Smugglers topic and the trip to St Barbe Museum to find out who was involved in smuggling locally in the 18th Century (pretty much everyone...) We've had a great time exploring and making in our old toys topic – did you know, our KS1 children can make a very decent axle!

# Tulane Class

Tulane has had a busy first term of the year! We've taken part in so many wonderful activities that have seen the children grow as learners and individuals. We started with a fantastic trip to Woodmill where everyone showed such resilience and wonderful teamwork. This was followed by an Egyptian Day filled with exploring, artefacts and costumes! We have enjoyed science days, Special Me day, Indian Food Tasting afternoon and many more – what a wonderful start to the year!

# Shadow Class

This term, we delved into the inspiring journey of Ellen Macarthur, drawing valuable lessons on resilience from her ground-breaking achievements in global sailing. Our historical inquiry into the rise and fall of Ancient Egyptian power was a captivating exploration. We loved the visit from an Ancient Egyptian expert, who guided us through the intricacies of preparing a pharaoh's body and led a mournful funeral procession, bringing history to life.

A pinnacle of the term was our exhilarating trip to Woodmill Activity Centre, where we put our resilience skills to the ultimate test. Everyone emerged from the experience with a true sense of accomplishment!

# Aslan

Aslan Class have shone in their role as buddies to the Gruffalo children, helping them settle into the school community. In class meetings, they worked as a team to get the lines repainted on the netball court, involving fundraising, presenting to the school and meeting with the contractors to consider costings and eco-credentials. Their exceptionally powerful class speech on climate change was a highlight at Harvest Festival. Aslan visited the Globe theatre for an inspirational Macbeth drama workshop and also went to see the Lion King at the theatre - this was a very well deserved treat, well done Year 6!

Strive AND  
Believe TO Shine

Thank you for a fantastic  
Autumn Term SBS

Merry  
Christmas  
everyone!
