

## Home-Learning Project

Aslan Class	Term: Spring 2017	Topic: Journey to and from the River Sea
-------------	-------------------	--

### Spring Term Task:

As we will be focussing on the Amazon in South America this term, our home-learning project will be based around this. I would like you to take a particular area of South America that interests you and research about it. You will need to present your findings in a way that you would like. The area of interest could be about a particular country, or area within a country. It maybe you would like to find about Amazonian art or clothing. You may even love a football team from South America and would like to find more about them!

You will then be given time towards the end of term to present your research and findings. This could be showing resources you have made, giving a talk or any other way you fancy! For example: a PowerPoint, a video you have made or a presentation.

I look forward to hearing about your research and findings!
