

Home-Learning Project

Class: Paddington/Elmer	Term: Spring 2	Topic: Space
--------------------------------	-----------------------	---------------------

Please choose a task from the list below. You are more than welcome to complete more than 1!

Task 1: Go outside when it is dark, or look out the window and talk about what you can see. Can you count the stars? Can you find the moon? Does the sky change from one night to the next? Can you create a collage of what you can see?

Task 2: Create a vehicle that you could use to travel into space. What would it look like? You could create a rocket using cardboard tubes, a spacecraft using old boxes or you could design a different type of vehicle you get you there!

Task 3: Develop and teach your family your own alien language - what word could you use for 'hello'?

Task 4: Research a planet or a destination, what interesting facts can you find about it? How long would it take to get there?

Task 5: Bake your own space themed cookies or biscuits. They could be star, rocket or planet shaped. They could even include space rocks such as popping candy! Feel free to share your biscuits with your teacher!!

Task 6: Research a famous astronaut.

Task 7: Make a space mobile you could hang in the classroom

The projects need to be in school on Monday 20th May.
