We will have **respect** for our adults, classmates and resources. As we know to gain respect we must first show it.
We will **persevere** when things get tough because mistakes are magic and that's how we learn.
Shadow class are all about showing **courage**. We will smile and face our challenges. Knowing that with a positive attitude and the support of our friends we can achieve whatever we set our minds to.
We will treat everyone with equal respect and **kindness**, using kind words and deeds, so that we all feel included in team Shadow.
Our aim is to have fun, be happy with who we are and see the good in others, even if they are different to us.
We will keep our work space tidy, for ourselves and others. We will take shared responsibility and pride in our classroom.
We know that **trust** begins with being truthful, we will accept our mistakes and learn from them.
We will try to bring **peace** by helping others with their friendship problems and by just being a good friend.
