

Dear Aslan

I hope you are all OK and enjoyed the work from yesterday. Here's your work for today:

**Maths:**

**LO: To calculate missing angles in a triangle**

<https://whiterosemaths.com/homelearning/year-6/>

Using the link above, look at Lesson 4 – Angles in a triangle, missing angles. Please complete the 'Flashback 4' at the start of the video and the worksheet to follow. Then mark it and see how you got on.

**Literacy:**

A nice one for you today... So we can get a bit further in the book, I would like you read or listen to the 2<sup>nd</sup> chapter of 'Goodnight Mr Tom'. I have saved a audio of chapter 2 on Learner's Pool in English, Goodnight Mr Tom, Goodnight Mr Tom Audio

**Music:**

**LO: To learn about melody and pitch**

Something a bit different for today...

<https://www.bbc.co.uk/bitesize/articles/zkx3bdm>

Using the link above (Singing with feeling), read through the website. There is a video to watch (featuring Bob Marley and a song you should all know!), a game to play about pitch, and a video to watch about singing with emotions.

After you have done that, there are some practise activities to do. You could do these in your learning journals. If you would like to record yourselves singing/ dancing/ performing to your favourite song or singing along with the choir, please upload it to your folder on the drive so I can see it too! If you have done any other work for the activities, please feel free to upload it too.

I have also created a Docs in Learner's Pool called "Song Suggestions". Please add your name and your song choice to this. When you have, I will create a wheel of names and add a song each day to your home learning instructions for us all to listen too and hopefully a dance and a sing along to it!

I hope you all have a lovely weekend in the sunshine!

Miss Scott
