

Wednesday 22nd April

Dear Elmer Class,

How are you? I love seeing all your work, please keep sending it to me. If you post it on learners pool, I can add a comment to it, so do check back.

Phonics

Continue to watch the Set 3 videos on Ruth Miskin's youtube channel.

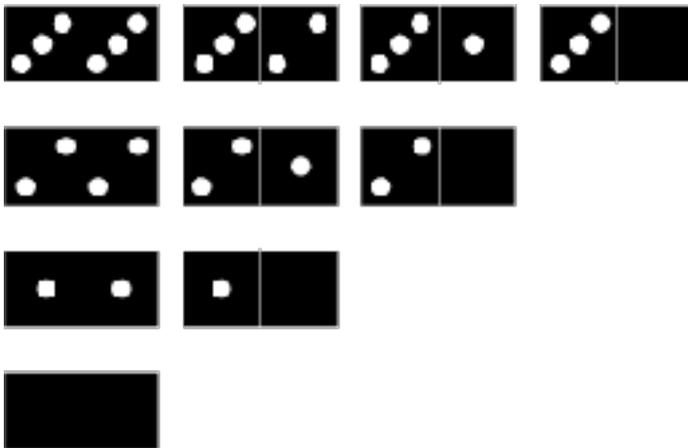

or

Make your own phonics flashcards to play with. Play the floor is lava, but with the flashcards. You need to jump on the flashcards, make sure you don't jump on the floor - it's lava! Call out each sound you jump on.

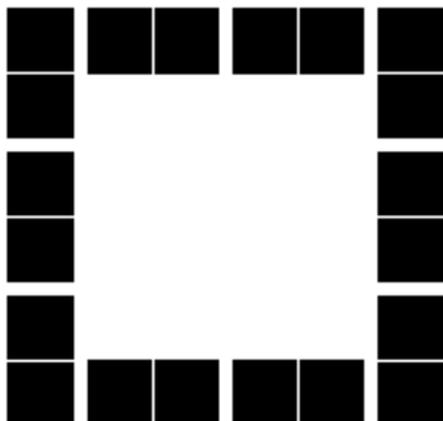

Maths

Domino Square

These are the 'double-3 down' dominoes.

Use these dominoes to make this square so that each side has eight dots.

I have (tried to) scan in Zog and saved it on learners pool - Elmer - Scanned books. I wonder what Zog might see on his way to school? Draw a map of Zog's route to school and label what he flies past. If you have time, I noticed that on BBC iPlayer the Zog film is available to watch, you could watch that. Do you notice any similarities between that and the book?

History

Castles were built to protect people living within them. There were lots of different ways to protect a castle – these are called mechanisms. Using a page from an information book – look at different mechanisms that are used to protect castles. Which mechanisms would you choose if you were building a castle? Select your top three and explain why. Design their own castle using their top three mechanisms. There is a book scanned in on Learners Pool - Elmer - Scanned books, the book called See Inside Castles will help you with this.

If you have any questions, please drop me an email on c.martin@southbaddesley.hants.sch.uk. Please show me your work, I love seeing it and missing you all lots.

Take care and stay safe,

Miss Martin.
