

Dear Aslan Class

Maths:

LO: To multiply fractions by fractions

I hope you managed to work out yesterday's maths and could access it. Today's is going to be in the same place. It is Lesson 2 – Multiplying fractions by fractions. If you feel you would like some more instruction and would like to do some more work on this, BBC Bitesize have a videos and worksheets on today's work. Just follow the link below:

<https://www.bbc.co.uk/bitesize/tags/zncsscw/year-6-and-p7-lessons/1>

English:

LO: To use role on the wall explore characters

Role on the wall is when we use an outline of a person (usually a gingerbread man shape!) and write words or phrases that would use to describe the characters' feelings, which can be stuck on the inside of the shape. Then words of phrases about their outward appearance to be stuck on the outside. Think – what do they look like on the outside and what are they really like on the inside to help you. (Hopefully you remember doing this with character from Journey to the River Sea).

For today's lesson, you will need to create one for Tom and Willie. If you find this tricky, just choose one of the characters instead. I have included an outline as template on Learner Pool (called Role on the Wall Template), which you could print off, or draw your own outline in your Literacy book. You may wish to include quotes of things they say and descriptive pieces from the text that has been read to support your ideas.

Hope you all have a lovely day.

Miss Scott
