

Tuesday 19th May

Dear Aslan Class

Hopefully you should all have received my email by now about virtual meetings on Thursday. At the bottom of the email is a meeting code. You will need to go to Google Meets (which you can find on the apps button on Chrome) and then put in the code for the meeting. I look forward to seeing you all then.

Maths:

LO: To multiply decimals by integers

On Learners Pool in Maths, Summer Week 5, Lesson 2. Do as much as you can, then self-mark.

Literacy:

LO: To understand similes, metaphors and hyperboles.

Throughout Goodnight Mr Tom, Michelle Magorian (the author) uses wonderful figurative language, which helps the reader to feel as if they were there. For today's lesson, we are going to recap on what similes and metaphors are and learn about hyperboles. Using the link below, watch the videos and complete the activities in your English book.

<https://www.bbc.co.uk/bitesize/articles/zhcc92p>

When you look at activity 2, you could always see if some of the sentences you write could fit in with the story of Goodnight Mr Tom.

If you wanted some extra work to do on this (only if you wanted), there are a couple of activities on IXL, under the heading 'Figurative Language'.

Speak to you all on Thursday!

Miss Scott
