

Hot Hive Games

We can play live hive games on Spelling Shed using this week's spellings. You will need your **hive code** and **game time** to play, both of which you can find below.

To join a game, click the menu icon in the top left hand corner and select 'Join Hive Game' from the list of options that appears. Type your hive code into the box and click 'Done'.

A bee will appear and the word 'waiting...' You will see this screen until the I begin the Hive Game at my end. The words will advance automatically at a steady pace and if you miss the word, or would like to hear it again, press the 'play' symbol to the left of the box. You will be shown your score at the end and I will be able to see your score too.
