

Monday 15th June

Good morning Aslan!

I hope you all had a lovely weekend and enjoyed virtual sports day on Friday.

Maths:

We will continue with how we have been doing maths – everyone does the same lesson on the same day. If you are at home, you will need to watch the video first. I have saved the video links, the worksheets and answer sheets on Learner Pool in the usual place.

This week we will continue to re-cap on algebra then move on to measures.

Monday	Tuesday	Wednesday	Thursday	Friday
LO: To solve two step equations	LO: To find pairs of values	LO: To convert metric measures	LO: To convert between miles and km	LO: To use my understanding to solve problems

Thursday: If on Wednesday you feel that you need to do more work on converting metric measures, in IXL Year 5 Maths, Measures, there are some good activities you could do on Thursday instead. Look at O.1 to O.5.

Friday: Using the link below, Friday's problems will be released. Work through as far as you can with them and see how you get on.

<https://whiterosemaths.com/homelearning/year-6/>

English:

Monday/Tuesday:

LO: To use commas correctly

<https://www.bbc.co.uk/bitesize/articles/zdy8qnb>

Using the link above, read and watch the videos to re-cap about using commas in sentences to mark clauses. This will also give you to opportunity to recap on subordinate clauses. There are two videos to

watch, a quiz to do and two activities. These can be done in your English books.

DT:

Wednesday/Thursday:

Over the next few weeks, I am going to give you a DT task to do at home.

Taking the WW2 slogan 'Make Do and Mend' I would like you to do exactly that. Take an old item from your house and either fix it so it mended or up-cycle an old item into something you could use again. For example, an old towel into a teddy bear or clothing into a bag or pencil cases. There are so many ideas so please be as creative as you wish.

For your topic book, I would like you to take a before and after picture. You may also wish to document the process you have taken by taking pictures of each step or writing a set of instructions on how you did it. Please also post these to Learners Pool so that we can see what you have done and also have a go ourselves!

I hope you all have had a lovely weekend and I look forward to seeing you this week.

Miss Scott
